APPLIED CATALYSIS A: GENERAL

Author Index

An, L., see Xiao, T. 187
Ando, H., see Fujiwara, M. 105
Bautista, F.M. and Delmon, B.
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Benaichouba, B., Bussiere, P. and Vedrine, J.C.
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
Bhat, Y.S., Das, J. and Halgeri, A.B.
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
Borkó, L., Schay, Z. and Guczi, L.
Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes 157
Bouwmeester, H.J.M., see Ten Elshof, J.E. 195
Bussiere, P., see Benaichouba, B. 31
Chao, Z.S., Zhou, X.P., Wan, H.L. and Tsai, K.R.
Methane oxidative coupling on $BaF_2/LaOF$ catalyst 127
Cheng, W.-H.
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Climent, M.J., Corma, A., García, H., Iborra, S. and Primo, J.
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
Corma, A., see Climent, M.J. 5
Cozens, R.J., see Jennings, J.R. 175
Das, J., see Bhat, Y.S. 1
Davis, B.H., see Srinivasan, R. 135
Delmon, B., see Bautista, F.M. 47
Ernst, H., see Schwarz, H.B. 227
Ernst, S., see Schwarz, H.B. 227
Fang, R., Harvey, G., Kouwenhoven, H.W. and Prins, R.
Effects of non-framework alumina in the acylation of xylene over USY 67
Fujiwara, M., Ando, H., Tanaka, M. and Souma, Y.
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
García, H., see Climent, M.J. 5
Guczi, L., see Borkó, L. 157
Halgeri, A.B., see Bhat, Y.S. 1
Harvey, G., see Fang, R. 67
Hoang-Van, C. and Zegaoui, O.
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Iborra, S., see Climent, M.J. 5
Jennings, J.R., Cozens, R.J. and Wade, K.
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Kärger, J., see Schwarz, H.B. 227
Keogh, R.A., see Srinivasan, R. 135
Knifton, J.F.
Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins 79
Kouwenhoven, H.W., see Fang, R. 67
Larsen, G., Lotero, E., Parra, R.D., Petkovic, L.M., Silva, H.S. and Raghavan, S.
Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen 213
Lotero, E., see Larsen, G. 213
Parra, R.D., see Larsen, G. 213
Petkovic, L.M., see Larsen, G. 213
Primo, J., see Climent, M.J. 5
Prins, R., see Fang, R. 67
Raghavan, S., see Larsen, G. 213
Röser, T., see Schwarz, H.B. 227
Schay, Z., see Borkó, L. 157
Schwarz, H.B., Ernst, H., Ernst, S., Kärger, J., Röser, T., Snurr, R.Q. and Weitkamp, J.
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Silva, H.S., see Larsen, G. 213

Snurr, R.Q., see Schwarz, H.B. 227
Souma, Y., see Fujiwara, M. 105
Srinivasan, R., Keogh, R.A. and Davis, B.H.
Activation and characterization of Fe–Mn–SO_4^{2-} / ZrO_2 catalysts 135
Tanaka, M., see Fujiwara, M. 105
Ten Elshof, J.E., Bouwmeester, H.J.M. and Verweij, H.
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Tsai, K.R., see Chao, Z.S. 127
Vedrine, J.C., see Benaichouba, B. 31
Verweij, H., see Ten Elshof, J.E. 195
Wade, K., see Jennings, J.R. 175
Wan, H.L., see Chao, Z.S. 127
Wang, H., see Xiao, T. 187
Weitkamp, J., see Schwarz, H.B. 227
Xiao, T., An, L. and Wang, H.
Dependence of the nature and catalytic performance on the synthesis factors of SAPO-5 molecular sieve 187
Zegaoui, O., see Hoang-Van, C. 89
Zhou, X.P., see Chao, Z.S. 127

ELSEVIER

Applied Catalysis A: General 130 (1995) 245–248

APPLIED CATALYSIS A: GENERAL

Subject Index

Acetone
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Acidity
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Acrylonitrile
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Acrylonitrile dimerisation
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Activation
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Acylation
Effects of non-framework alumina in the acylation of xylene over USY 67
Alcoholysis
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Aldolic condensation
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
α-Alkenes
Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins 79
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
$AlPO_4$
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Anion vacancies
Methane oxidative coupling on $BaF_2/LaOF$ catalyst 127
Aromatization
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
Basic catalysis
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Basicity
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Butanol dehydration
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Carbon dioxide
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
Catalytic performance
Dependence of the nature and catalytic performance on the synthesis factors of SAPO-5 molecular sieve 187
^{13}C MAS NMR
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Cobalt molybdate
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
Composite catalyst
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
Conductivity (mixed)
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
CsNaX-60
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
CsNaX-60·8CsOH
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Cu
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and

development of high-activity multicomponent catalysts 13
Cu/ZnO
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Cu–Zn-chromate
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
Deactivation
1-Butanol dehydration on $AlPO_4$ and modified $AlPO_4$: catalytic behaviour and deactivation 47
Deactivation of phosphinite catalysts
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Decomposition
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Dissociation
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Enrichment
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
Flame reactor
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Glycols
Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins 79
Hetero-homogeneous process
Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes 157
Heteropoly acids
Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins 79
^1H PFG NMR
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Hydrocarbon synthesis
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
Hydrogenation
Hydrogenation of carbon dioxide over Cu–Zn-chromate/zeolite composite catalyst: The effects of reaction behavior of alkenes on hydrocarbon synthesis 105
Hydrogen bronzes
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Hydroxyalkylation
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
Hysteresis
Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes 157
In-situ catalyst characterization
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
Intrinsic diffusion
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Iron
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Iron molybdate
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
Isopropanol
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
$La_{0.6}Sr_{0.4}Co_{0.8}Fe_{0.2}O_3$
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Manganese
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Membrane reactor
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Metal oxyfluoride
Methane oxidative coupling on BaF_2/LaOF catalyst 127
Methane coupling
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Methane oxidative coupling
Methane oxidative coupling on BaF_2/LaOF catalyst 127

Methanol
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
MFI zeolite
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
Molybdenum trioxide
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Montmorillonite clays
Detergent-range alcohol alkoxylates via vicinal glycol additions to α-olefins 79
Morphology
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Mössbauer spectroscopy
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
m-Xylene combustion
Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes 157
NaX
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
n-Butane isomerization
Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen 213
Non-framework alumina
Effects of non-framework alumina in the acylation of xylene over USY 67
n-Pentane
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
Oxygen permeation
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Palladium/stainless steel flakes
Total combustion of *m*-xylene over palladium catalysts supported by stainless steel flakes 157
Palladium on sulfated zirconia
Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen 213
Palladium promotion
Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen 213
para-Xylene
n-Pentane aromatization over pore size regulated MFI zeolite: Enrichment of *para*-xylene content in xylenes 1
particle size influence
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
Perovskite
Oxidative coupling of methane in a mixed-conducting perovskite membrane reactor 195
Phosphinite catalysts
The catalytic dimerisation of acrylonitrile: deactivation of phosphinite catalysts by alcoholysis 175
Platinum catalysts
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Propene
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Propene oxidation
In-situ Mössbauer spectroscopic study of iron site evolution in iron and cobalt molybdates catalysts in propene oxidation reaction conditions 31
SAPO-5
Dependence of the nature and catalytic performance on the synthesis factors of SAPO-5 molecular sieve 187
Solid superacids
Characterization of palladium supported on sulfated zirconia catalysts by DRIFTS, XAS and n-butane isomerization reaction in the presence of hydrogen 213
Solvent effect
Effects of non-framework alumina in the acylation of xylene over USY 67
Structure
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89

sulfated
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Sulfated zirconia
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Syngas
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Synthesis factors
Dependence of the nature and catalytic performance on the synthesis factors of SAPO-5 molecular sieve 187
Thermal analysis
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
Trapped electrons
Methane oxidative coupling on BaF_2/LaOF catalyst 127
Tungsten trioxide
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
Ultrafine particles
Studies of high surface area Pt/MoO_3 and Pt/WO_3 catalysts for selective hydrogenation reactions I. Preparation and characterization of catalysts by X-ray diffraction, transmission electron microscopy, hydrogen consumption and carbon monoxide chemisorption 89
XRD
Reaction and XRD studies on Cu based methanol decomposition catalysts: Role of constituents and development of high-activity multicomponent catalysts 13
Xylene
Effects of non-framework alumina in the acylation of xylene over USY 67
Zeolite β
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
Acid zeolites as catalysts in organic reactions: condensation of acetophenone with benzene derivatives 5
Zeolites
NMR study of intrinsic diffusion and reaction in CsNaX type zeolites 227
Zeolite Y
Effects of non-framework alumina in the acylation of xylene over USY 67
Zirconia
Activation and characterization of Fe–Mn–SO_4^{2-}/ZrO_2 catalysts 135
